

# AVENUE SOUND

nothing  
we do is ordinary

Company Profile

## Who are we?

Welcome to Avenue Sound's Home & Commercial Lifestyle Division.

Whether you are an audio enthusiast looking for a basic whole house audio package or an avid expert seeking complete automation and audio/video solution, we can deliver the right fit for your needs.

Starting with our friendly and knowledgeable sales staff to our creative and experienced install team, no project is too big, too small, or too complex.

Our entire staff is dedicated to providing you with unmatched service & support from start to finish and beyond! Allow Avenue Sound's friendly specialists to convert your house into your very own personalised dream home or commercial space.

## Nothing We Do Is Ordinary

**Avenue Sound specialises in performing custom installations and integrations of Audio/Video and Automation Solutions for Residential, Commercial and Marine Landscapes.**

We can “Rock Your Boat” or set up a “Dedicated Home Cinema” in your Residence. We can make sure your Amazon Alexa reads your morning schedule to you while you’re having breakfast and ensure that WiFi dead spot you have in the corner of your bedroom disappears for good. In short, we are all about “Custom Integration”.

From the Sales and Education Process to the Design Stage and Finally the Implementation, we assure our talented team will execute professionally and on schedule with documentation properly presented along each step of the way. Avenue Sound is focused on customizing each client’s lifestyle to meet their individual needs.

# Our Unique Process

“

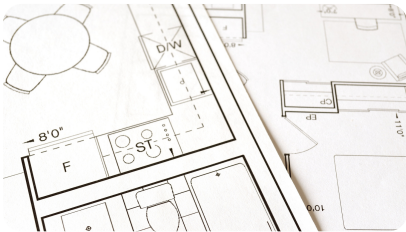

*Execution is a systematic process of rigorously discussing hows and whats, tenaciously following through, and ensuring accountability.*

*- Lawrence Bossidy*

## CONSULTATION

Probably the most crucial step in our unique process, the initial consultation helps us to understand what our clients requirements, expectations and goals are. We start with a questionnaire to go through the options and services and proceed to create a plan for the most optimal execution of the project.

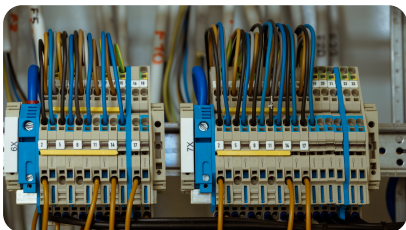

## DESIGN

The Design stage gives us a chance to really show off our skills with Custom Installation. Speaker Placement, Server Rack Integration, Proper Ventilation, Future Proofing are just a few terms you are going to hear a lot from us. And these factors are taken with utmost importance in our Design process.

## PROJECT MANAGEMENT

Once the designs are approved, its time for execution. A member of our Project Management team will begin coordination with the Project Supervisor, Electrical Contractor and members of our Installation team. Conduits are laid, cables are run and any pre-wiring hardware is installed according to our wiring diagram.

## INSTALLATION

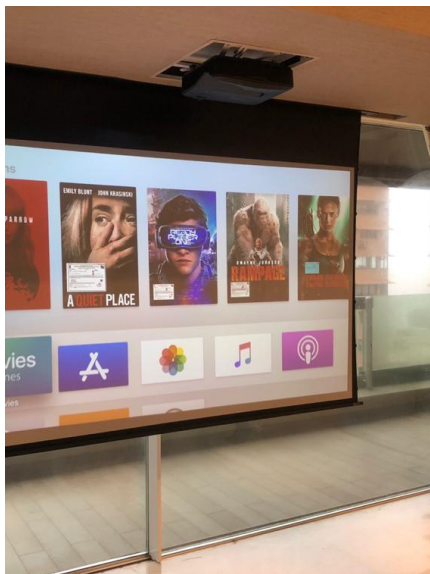

When performing a custom installation the smaller details are very important. Ensuring wires are connected to the proper equipment, correctly labeled and a systematic wire management is executed to ensure neatness.

## DOCUMENTATION AND TRAINING

Once our team has double and triple checked the entire installation, making sure we have dotted all of our "i's" and crossed all of our "t's", we start the handover process. We provide every client with a folder including any documentation for the project.

# Our Solutions

## HOME THEATER & AUDIO

Audio & Video artistry at its best

From jaw dropping home cinemas to simplistic entertainment rooms, Avenue Sound designs vivid and immersive cinematic experiences to ensure every member of the audience feels as though they are on center stage.

## HOME AUTOMATION

Customised Lifestyles

From homes small to large, new & old, Avenue Sound delivers power and performance on one platform that coordinates technology in your house into complete, brilliant experiences - interactions that fit your lifestyle and are easy for your family to enjoy. With one touch, dim the lights, stream high-resolution music, turn up the heat, lock the doors and arm the security system.

## NETWORKING AND WIFI

Just Press Connect

On average, today's smart home houses a multitude of connected devices, each hijacking bandwidth from your home network. Add to that the increasing services throughout your house and it becomes abundantly clear that a robust, high-performance home network is critical.

# Our Solutions

## MARINE AUDIO & INTELLIGENCE

Seamless Customisation

Avenue Sound's services are not just restricted to land. We offer completely weatherproof audio, bespoke and high end technology, and automation and integration for any environment. Whether you have a super yacht which needs to be automated or a recreational vehicle which needs customised audio solutions, we can customise and integrate no matter where the setting.

## RENEWABLE ENERGY

Nature's Gifts

Avenue Sound is a big supporter of going green and our solutions not only help you benefit the earth, but help you take advantage of the free and valuable gifts Mother Nature has offered us. We can integrate a variety of solutions from solar power to energy tracking and efficiency, all cleverly integrated with your connected home and incorporated seamlessly with your lifestyle.

# Our Clients

Meet some of our happy clients

# Our Commitment

We are committed to upholding our most cherished values in every project and task we take on.

The word commitment can be defined as the state or quality of being dedicated to a cause, activity, etc. When Avenue Sound begins a relationship with a client, no matter how big or small, we know the commitment we are also now responsible for. Our entire team understand the values and effort which go into completing a project to the standards Avenue Sound has committed to upholding.

Every team member at Avenue Sound is incredibly passionate about their work. From project deadlines to service calls, each task assigned to us is taken on with an attentiveness that exemplifies our dedication to each and every one of our clients. We know how to pay attention to every detail, and we know customer satisfaction is the ultimate compliment.

We know you have a lot of choices when it comes to choosing a custom integration specialist for your project. But before you make your final choice, let's talk about the commitments Avenue Sound can offer you.
