# WHO ARE WE ?

“ WELCOME TO AVENUE  
SOUND'S HOME &  
COMMERCIAL LIFESTYLE  
DIVISION

---

At Avenue Sound, we cordially invite you to explore the limitless possibilities within our Home & Commercial Lifestyle Division. Whether you are an audio aficionado in search of a simple whole-house audio solution or a seasoned expert on a quest for complete automation and audio/video excellence, we possess the expertise to curate a tailored solution that precisely fits your unique requirements.

From the very first encounter with our friendly and well-informed sales team, you'll embark on a journey to transform your living or business space. Avenue Sound's creative and experienced installation team stands ready to tackle projects of any scale, from the modest to the highly intricate. No project is too big, too small, or too complex for us to handle with precision and dedication.

Our commitment to providing unparalleled service and support is unwavering, extending from the project's inception to well beyond its completion. At Avenue Sound, we understand that your home or commercial space is a canvas where your aspirations take shape. Allow our amiable and dedicated specialists to take your vision and convert it into a personalized dream home or a cutting-edge commercial environment that reflects your unique lifestyle.

With Avenue Sound, you're not just purchasing technology; you're embracing an extraordinary experience that goes above and beyond your expectations. Welcome to the future of home and commercial automation, where excellence knows no bounds.

# Why Nothing We Do Is Ordinary

Our team specializes in performing custom installations and integrations of Audio/Video and Automation Solutions for Residential, Commercial and Marine Landscapes.

We can "Rock Your Boat" or set up a "Dedicated Home Cinema in your Residence. We can make sure your Amazon Alexa reads your morning schedule to you while you're having breakfast and ensure that WiFi dead spot you have in the corner of your bedroom disappears for good. In short, we are all about "Custom Integration".

From the Sales and Education Process to the Design Stage and Finally the Implementation, we assure our talented team will execute professionally and on schedule with documentation properly presented along each step of the way. Avenue Sound is focused on customizing each client's lifestyle to meet their individual needs.

# OUR UNIQUE PROCESS

*A process that is loved & valued by our customers*

Execution is a systematic process of rigorously discussing hows and whats, tenaciously following through, and ensuring accountability.

-Lawrence Bossidy

## CONSULTATION

---

01

Probably the most crucial step in our unique process, the initial consultation helps us to understand what our clients requirements, expectations and goals are. We start with a questionnaire to go through the options and services and proceed to create a plan for the most optimal execution of the project.

## DESIGN

---

02

The Design stage gives us a chance to really constructively use our skills for Custom Installation. Speaker Placement, Server Rack Integration, Proper Ventilation, Future Proofing are just a few terms you are going to hear during this stage. And these factors are taken with utmost priority in our Design process.

# PROJECT MANAGEMENT

---

03

Once the designs are approved, by you your architect and us it's time for execution. Our Project Management team will begin coordination with the Supervisor, Electrical Contractor and members of the Installation team. Conduits are laid, cables are run and any pre-wiring hardware is installed according to the wiring diagram.

# INSTALLATION

---

04

Each installation comes with its own customizations. The smaller details are very important, ensuring wires are connected to the proper equipment, correctly labeled and a systematic wire management is executed to ensure a clean look.

# DOCUMENTATION AND TRAINING

---

05

Once our team has double and triple checked the entire installation, making sure we have dotted all of our "I's" and crossed all of our "t's", we start the handover process. We provide every client with a folder which includes all relevant documentation for the project.

# commercial Solutions

# HYBRID WORKSPACE

From Offices small to large, new & old, Avenue Sound delivers power and performance on one platform that coordinates technology in your office workplace into complete, brilliant experiences - interactions that fit your lifestyle and are easy for your family to enjoy.

With one touch, dim the lights, stream high resolution music, turn up the heat, lock the doors and arm the security system.

# ENTERPRISE AUTOMATION

## The Concept

Office automation is the automatic control of electronic devices in your commercial space. These devices are connected to the Internet, which allows them to be controlled remotely. With Office automation, devices can trigger one another so you don't have to control them manually via an app or voice assistant. For example, you can put your lights on schedules so that they turn off when you normally go to sleep, or you can have your thermostat turn the A /C up about an hour before you return to work so you don't have to return to a stuffy office.

**Office automation makes life more convenient and can even save you money on heating, cooling and electricity bills.**

# VIDEO CONFERENCING

For Productivity and Comradery

Desktop. Tabletop. Front of room. Custom spaces. On site or off, Crestron Flex Video Conferencing solutions make collaborating easy and productive. Intelligent audio and video ensure everyone, in-person or remote, participates equally. Seamless integration with localized and networked AV makes content distribution, sharing, and conferencing effortless.

# Room Scheduler

Find the right space at the right time – every time

Crestron Flex Scheduling solutions keep your organization moving. Every type of space can be booked on the same platform, so everyone gets the right space whenever they need it. And every space gets smarter—delivering data that optimizes utilization and planning.

In today's hybrid workplace, people come and go on different schedules. To keep everyone working efficiently and productively, it's essential to integrate room scheduling into your workplace design.

After writing all your articles and adding them to your layout, list down all the titles to set up your table of contents. You can add a brief description for each article or keep it simple and paste the feature titles on the page. Don't forget your page numbers too!

Finally, design your back page. Most magazines feature a full-page advertisement, which you're also welcome to do. Why not partner with a local business and feature their products? Not your style? Simply include some contact information and tell your audience how to reach you. Add your social media handles, email, or even any publication information you think they'd be interested in. You can even just extend your cover photo to keep things clean and simple. A magazine can be a great way to reach your audience and communicate your message to the world.

# WI-FI & NETWORKING

Internet Access Points with  
Wide-Area Coverage

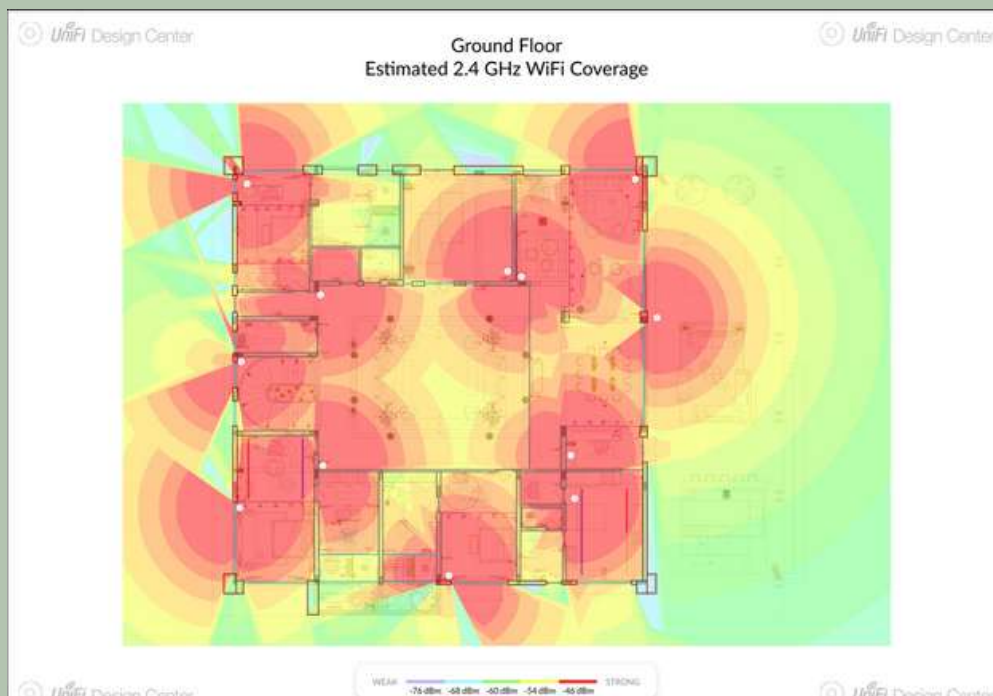

- Avenue Sound utilizes the latest technology to create powerful and scalable networks with dedicated routers, access points and network switches to ensure you are connected wherever you go.
- By eliminating dead spots, we ensure wireless reliability throughout your office.
- We make sure your switches bring out the true performance of your connected devices to provide flexibility for your wired connections and power your devices. Local devices and access points are hard wired with Cat6A category cabling to further extend the ONE Gigabit Network throughout the Office.
- Wi-Fi Access Points are strategically placed throughout the office, both indoors and outdoors, to ensure a seamless roaming Wireless Network is available in each corner of the Office.

# Wi-Fi & Networking | Access Point Layouts & Heat Maps

As per your floor plan, we create accurate drawings to help you understand the placement of Wi-Fi Access Points & the estimated coverage of overall internet connectivity throughout your Office Space.

# SMART SECURITY

**Keep Your  
CorporKingdom  
Guarded at all Times**

**Smart office security systems** possess several significant advantages over traditional office security models. With expanded and more effective capabilities, dozens of industry are increasingly inquiring about these to better protect themselves and loved ones from outside threats.

Modern security systems now allow you to remotely monitor what's happening in your office from your phone when you're not there. Depending on your provider, you can monitor security cameras installed throughout your office, as well as control smart thermostats, smart keyless door locks, smart lighting, and other smart devices in every room of your office.

Smart security systems, on the other hand, are proactive, featuring a wide range of capabilities to further protect your office. For example, alerts can be received from anywhere via your smartphone , iPad, and/or desktop computer , providing critical updates on recent activities in and around your office. If the door was left open by mistake , for instance , you'll be notified , so you won't have to worry about anyone wandering around while you're sleeping or at work. Giving your property a secure perimeter of protection can help you rest easy at night or while you are away on vacation.

## HOME AUTOMATION

### Customised Lifestyles

From homes small to large, new & old, Avenue Sound delivers power and performance on one platform that coordinates technology in your house into complete, brilliant experiences - interactions that fit your lifestyle and are easy for your family to enjoy. With one touch, dim the lights, stream high-resolution music, turn up the heat, lock the doors and arm the security system.

## HOME THEATER & AUDIO

### Audio & Video artistry at its best

From jaw dropping home cinemas to simplistic entertainment rooms, Avenue Sound designs vivid and immersive cinematic experiences to ensure every member of the audience feels as though they are on center stage.

## NETWORKING AND WIFI

### Just Press Connect

On average, today's smart home houses a multitude of connected devices, each hijacking bandwidth from your home network. Add to that the increasing services throughout your house and it becomes abundantly clear that a robust, high- performance home network is critical.

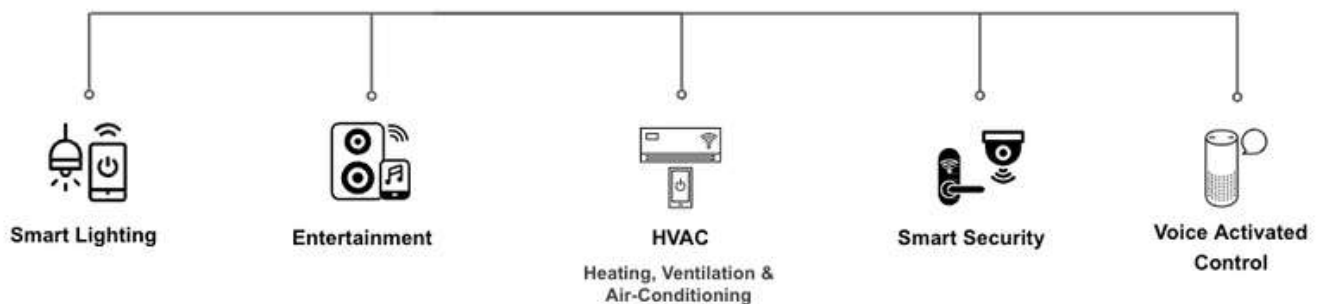

# HOME AUTOMATION

# *Dedicated Home Theater*

## **Bring Home The Big Screen Entertainment**

If there's that one thing that really lures us to go to the movie theatres is, the ever-chanting sound experience. Today, with online streaming services presenting new shows and movies every other day, there is no better way to enjoy them than from the comfort of your own home, particularly by way of a home theater system.

Using the best calibrated speakers along with our correct speaker placement strategy, our team ensures to create an immersive sounding experience for your home cinema.

Let's just say, you wouldn't miss going to the cinema halls ever with your new immersive surround sound system.

# *Projector Screens*

a visionary in motorized roller shades and projection screens. **We bring you the essence of innovation and design, seamlessly integrated with automation.** Elevate your living experience with energy-efficient shade fabrics and robust mesh, synchronized for a flawless aesthetic. From indoor sanctuaries to outdoor marvels, **Screen Innovations** transforms any space into a world-class entertainment theater with a modern, clean design.

It's not just about Ambient Light Rejecting materials or low-voltage options—Screen Innovations stands as your first choice for beautiful lifestyle innovations because we are more than a brand; we are your trusted partner. Devoted to impeccable service, easy installation, and outstanding customer care, we turn feedback into transformative technology. For your next project or grandest dream, contact Screen Innovations today through Avenue Sound, where innovation meets modern living.

In the realm of projection screens, **Stewart** stands as an embodiment of the art of innovation seamlessly interwoven with the trust of tradition. Beyond being mere screens, **Stewart** is a collective of dreamers, designers, and forward-thinkers dedicated to crafting unparalleled viewing experiences. With a rich legacy spanning over 70 years in the projection screen industry, Stewart ensures products designed with unwavering integrity and built to withstand the test of time. Their impact extends beyond the ordinary; they have illuminated Hollywood with excitement, filled home cinemas with wonder, and transformed conference halls into beacons of inspiration. Proudly made in the USA, Stewart continues to redefine the boundaries of what's possible in the world of projection screens.

# *Multi Zone Audio Distribution*

Fill Your Whole Home With Music

- Stream music wirelessly & have music vibing across your entire home using a smartphone, tablet, smart watch or a universal remote control.
- Access your favorite music streaming services with whole-home audio entertainment Add a personalized playlist to any scene for a soundtrack to match any moment, in perfect harmony with the rest of your smart home experience.
- Customizable dashboards allow users effortlessly control multiple streaming services, access Spotify Connect integration, personalize volume levels and access recently played content and favorites all on the home screen.

# Brand We Work With

**V/COUSTIC**

As an authorized dealer, Avenue Sound introduces **Vicoustic**, a **trailblazer in acoustic treatment solutions**. Vicoustic seamlessly blends innovation with acoustic excellence, catering to diverse environments, from the precision demands of recording studios to the dynamic settings of offices, restaurants, and schools.

For 16 years, **Vicoustic has been at the forefront, designing and delivering sustainable solutions** that redefine how we experience and appreciate sound. Explore a symphony of possibilities with Avenue Sound, your gateway to Vicoustic's acoustic mastery.

Avenue Sound proudly brings you miniDSP, a technological marvel born in 2009. **miniDSP is a beacon of innovation in Digital Signal Processing (DSP) for audio applications.** Fueled by a passion for technology and an "Agile" product development philosophy, miniDSP has grown, creating in-house intellectual property. Join us at Avenue Sound for a sonic journey—stay tuned for the exciting years to come with miniDSP

# GRAY

Introducing Gray Sound, a cutting-edge audio brand developed and manufactured in The Netherlands. With a commitment to quality, **Gray Sound's VOX** series showcases an integrated speaker system crafted using **premium European components**. The essence of Gray Sound lies in its dedication to custom installation, ensuring a seamless and tailored audio experience. Elevating the auditory landscape, Gray Sound represents a fusion of Dutch innovation and European craftsmanship, bringing a sophisticated touch to the world of audio.

# RYTHMIK

Rythmik Audio, born out of a passion for music, stands as a beacon in the realm of subwoofers with a simple yet powerful mission: **to deliver the most accurate bass at an unbeatable price.**

Driven by passion rather than profit, Rythmik Audio has been a pioneer in crafting audiophile subwoofers that excel in both value and performance. **The company's cutting-edge yet straightforward technology ensures that their subwoofers outperform others in the market.**

Addressing a gap in the industry, Rythmik Audio offers products that satisfy both movie enthusiasts and audiophiles, providing articulate and impactful bass. With an ethos of affordability, Rythmik Audio challenges the notion that true audiophile subwoofers must come with a hefty price tag.

**Screen Innovations** leads in motorized roller shades and projection screens, seamlessly blending innovation and design. **Elevate spaces with energy-efficient fabrics, creating a flawless aesthetic indoors or out.** More than a brand, they're a trusted partner, devoted to easy installation and outstanding customer care. For cutting-edge living, choose Screen Innovations through Avenue Sound, where innovation meets modern living.

# Stewart

F I L M S C R E E N

**Stewart Film Screen**, a pioneer in projection screens, seamlessly blends innovation with tradition. As dreamers and designers, they craft **unparalleled viewing experiences, boasting over 70 years in the industry.** Stewart's unwavering integrity ensures durable products that transcend time, leaving a mark in Hollywood, home cinemas, and conference halls. Proudly made in the USA, Stewart constantly redefines the possibilities in the world of projection screens.

# “Nurturing Partnerships with the Finest Brands in Sonic Innovation. Together, we orchestrate a symphony of quality, craftsmanship, and audio mastery

Embark on a journey into audio excellence with Perlisten, a tale woven by discerning audiophiles. **Founded by industry talents boasting numerous awards,** Perlisten introduces a revolutionary audio concept—Perceptual Listening. Whether your heart beats to classical melodies or the pulsating rhythm of blockbuster movies, **Perlisten speakers and subwoofers redefine audio performance, setting an unprecedented industry standard.** Feed your audiophile soul; immerse yourself in the unparalleled craftsmanship of Perlisten. Avenue Sound is your gateway to a symphony of sound innovation.

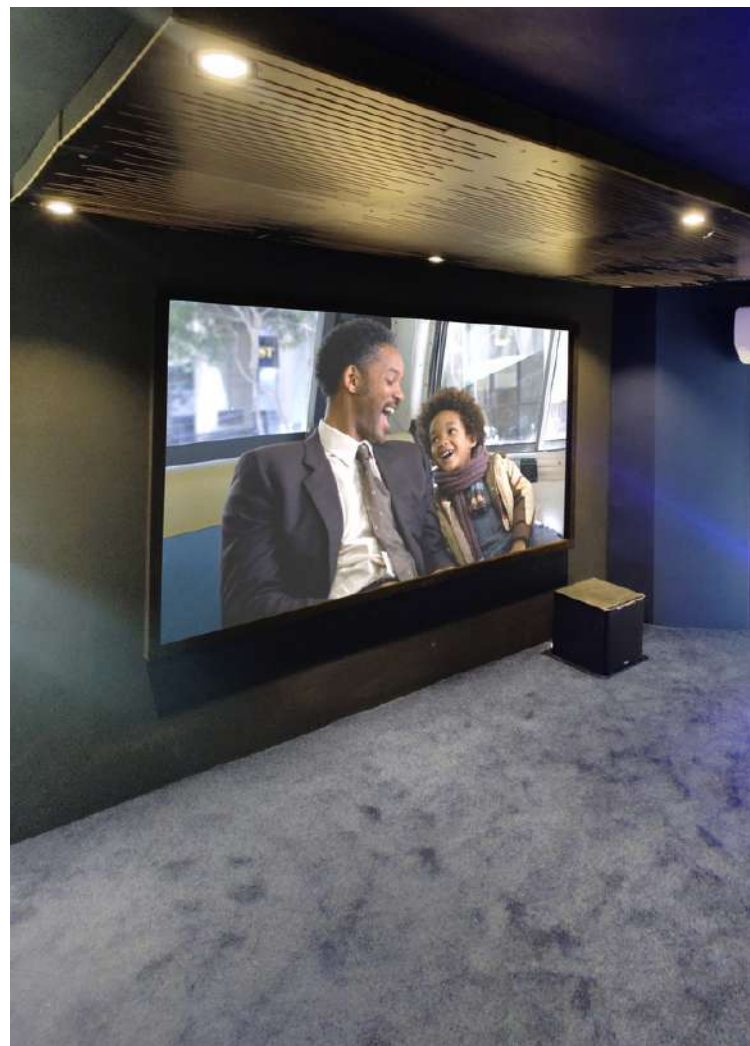

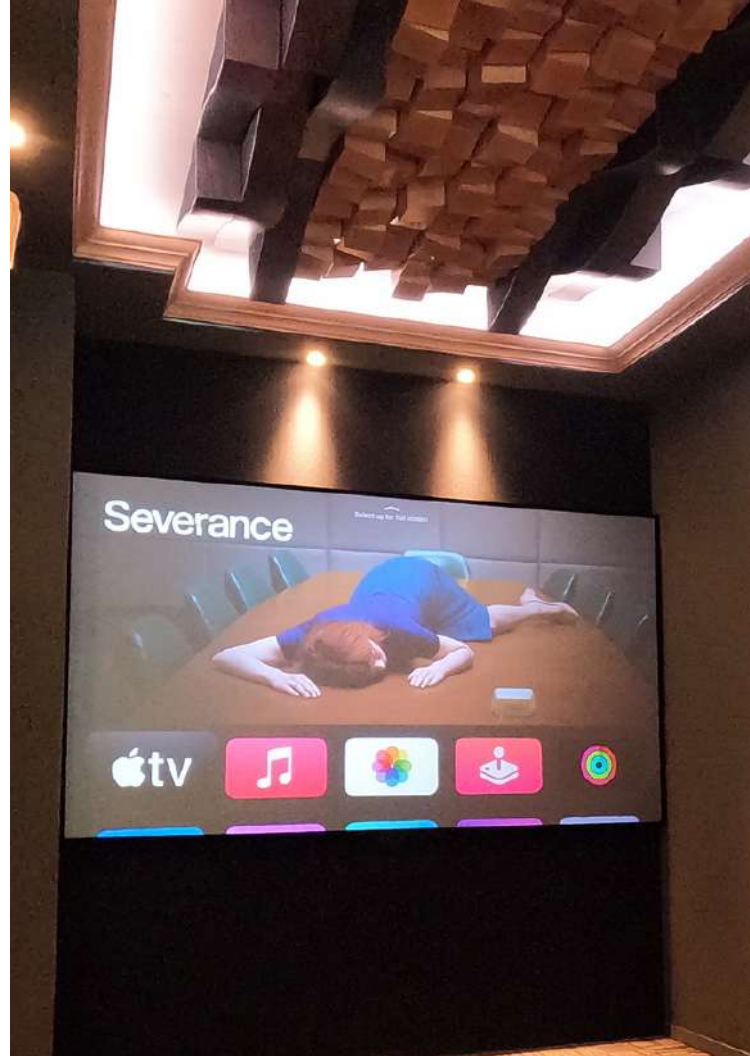

**AudioControl®**  
Making Good Sound Great™

Avenue Sound proudly presents AudioControl – **not just creators of superb home audio equipment, but architects of a better auditory lifestyle.** Beyond delivering stunning, concert-hall-quality audio for your living room and Hollywood-studio-worthy sound for your home theater, AudioControl is on a mission to improve lives and ignite happiness. Join the journey with Avenue Sound, your gateway to an audio experience that transcends expectations.

# EXPLORING SONIC EXCELLENCE IN OUR DEMO ROOMS

Step into our Demo Room oasis in **Mumbai** and **Navi Mumbai**, where the magic of audio comes to life. In Navi Mumbai, our showcase features a **5.1 setup with Perlisten R series speakers**, including the powerful R5 In-wall for LCR and the thunderous D15s handling low frequencies, **powered by AudioControl Power Amplifiers**. Meanwhile, at our Mumbai Kemps Corner Showroom, the S series awaits. Both spaces are meticulously acoustically treated for optimal sound quality, with calibration finesse courtesy of **MiniDSP 2x4 and Dirac technology**. Immerse yourself in an unparalleled auditory experience, a testament to Avenue Sound's commitment to sonic excellence

# Elevating Audio Mastery

## Avenue Sound's Calibration Training Journey

Dive into the world of audio mastery with Avenue Sound's training sessions. Our recent **"Audio Calibration Training"** was a deep dive into speaker placement, room design, EQ, and room correction. Using REW's Room Sim tool, participants discovered optimal spots for speakers and subwoofers, creating truly immersive experiences.

Hands-on sessions with MiniDSP UMIK-1 and UMIK-2 ensured precise measurements for audio perfection. Witnessing the transformative impact of **MiniDSP and REW calibration** left everyone exhilarated, elevating their audio setups. The training extended into the revolutionary Dirac technology, demonstrating seamless calibration using AudioControl XR-6 AV Receiver/Processor. Dirac's state-of-the-art room correction technology proved a game-changer, even in untreated spaces.

Avenue Sound's Audio Calibration Training journey was a resounding success, providing invaluable insights to dealers and participants. The experience enhanced their ability to deliver the ultimate audio experience, celebrating triumphs and overcoming challenges. We value the perspectives and questions that make our training a collaborative journey toward audio greatness.

# OUR CLIENTS

# What Is Everyone Saying

---

I had recently purchased a Rythmik l12 and umik - 1 previously from Avenue Sound, Mr.Vikram Sharma had handled the sales who kept me in the loop about every milestone. The product was wrapped in layers of bubble wrap and was delivered without any damage. Highly recommend them. Thank you!

**Mohan Deventhiran**

I have found them online while searching for a calibration microphone. Their pricing was lowest and so I ordered. The product was shipped in few hours and it reached within three days. It was responsive. I appreciate their quick service and pricing.

**Jeevan J**

My experience was amazing it's a genuine store awsm products, Rahul was dealing me he is an amazing personality with a correct knowledge, as he never hesitate to share his knowledge to customer, 👍 a very good online experience

**Japjeet singh Dhama**

Super efficient and thorough throughout. Never tried to upsell and always gave on-point advice. One year in, they continue to solve any of my issues on phone within minutes and send a technician that day itself. Highly recommend this gem team :)

**Varoon Godha**

## *Our* COMMITMENT

The word commitment can be defined as the state or quality of being dedicated to a cause, activity, etc. When Avenue Sound begins a relationship with a client, no matter how big or small, we know the commitment we are also now responsible for.

Our entire team understand the values and effort which go into completing a project to the standards Avenue Sound has committed to upholding.

Every team member at Avenue Sound is incredibly passionate about their work. From project deadlines to service calls, each task assigned to us is taken on with an attentiveness that exemplifies our dedication to each and every one of our clients. We know how to pay attention to every detail, and we know customer satisfaction is the ultimate compliment.

We know you have a lot of choices when it comes to choosing a custom integration specialist for your project. But before you make your final choice, let's talk about the commitments Avenue Sound can offer you.

# AVENUE SOUND
